Olivia Straw: Winchester Hospital Center for Cancer Care

ostraw@winhosp.org

Winchester Hospital

Biography:

I came to nursing after teaching high school biology for several years. I decided to go back to school to become a nurse and eventually a nurse practitioner, after accompanying a loved one through a long battle with cancer. I was so impressed with the nursing staff that cared for us during that time. They were both knowledgeable and compassionate. As an oncology nurse practitioner, I feel privileged to be able to care for my patients over many years and to really get to know them as people. I chose Winchester Hospital because of its outstanding reputation and for the strong sense of community it fosters. Outside of work, I enjoy running, traveling as much as possible, good food, and the company of my wonderful family and friends.
