George Smith '70: US Treasury Department

attachebaghdad@gmail.com

Biography:

I worked for 20 years in finance on Wall Street and the city of London. A mid-career change brought me to the US Government, where I managed the Treasury Department's outreach activities with the former Communist countries of Eastern Europe and the former Soviet Union through the newly-created Office of Technical Assistance (OTA). The thrust of this work was to assist these countries in restructuring their systems of economic governance from those designed to work in Communist-style 'Command' economies to ones appropriate for Capitalist-style, 'Market' economies. Over time, OTA's mission expanded from this work to providing assistance in the area of economic governance to post-conflict countries and to those confronting natural disasters. As OTA Director, I was thus involved in Treasury's provision of assistance to Liberia, Sri Lanka, Afghanistan, Pakistan, Iraq, Sudan, Southern Sudan, and the Democratic Republic of the Congo. As part of the civilian 'Surge' in Iraq, Treasury posted me to Iraq to serve as the Attache for the 2007-2008 period. Immediately prior to retirement, I was posted to Manila to serve as the economic advisor to the US Executive Director of the Asian Development Bank.
